Election/Restrictions

A telephone call was made to Mr. Joseph P. O'Malley, Reg. #36,266 to reach agreement on a restriction requirement. Mr. O'Malley agreed to restriction but an election being made over the telephone.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-25 and 39-70, drawn to an electronic commerce web site system, classified in class 705, subclass 26.
- II. Claims 26-38, drawn to inter-program communications, classified in class 709, subclass 313.
- III. Claim 71, drawn to distribution/promotion program, classified in 705, subclass 14.
- IV. Claims 72-73, drawn to computer-to-computer session connecting/establishing, classified in class 709, subclass 227.

Inventions I-IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each invention has separate utility as noted above. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for any group is not required for any other group, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).
